

## Vision Area 4: Infectious Disease

### Objective 23: Increase vaccination coverage for recommended vaccines among young children

Vaccines are among the most cost-effective clinical preventive services and are a core component of any preventive services package. Increasing vaccination rates can reduce preventable infectious diseases among young children.

#### Statistics and Goals

Measure: Percentage of children (19-35 months old) who receive recommended vaccines

Source: National Immunization Survey

National Baseline	Maryland Baseline	Healthy People 2020 Target	Maryland 2014 Target
68%	78%	80%	80%
